## SANTA FE NOTES

Engines Nos. 428, 493 and 468 were brought into the Topeka shops Friday from Emporia by Engineers Romigh, McGraw and Knittle.

John Feldner, a local switchman is again on the sick list, he returned to work Monday, but his condition had not improved enough for the heavy work.

W. L. Abbott, a former conductor of the Big Four at Columbus, O., has been assigned to work as a Santa Fe conductor and will run out of Raton, N. M.

Engineer Henkle is running in extra passenger service. The Santa Fe ran an extra to Lawrence for the football game this afternoon.

The new time card, the leading feature of which is the restoration of train Nos. 113 and 114 will go into effect at midnight.

F. C. Fox, general superintendent, spent Friday in Kansas City on business.

R. C. Cline is a new employe in the engineering department. Engineer Ed Smith is taking the place of Engineer Wheeler on the Marcelline runs.

The entertainment at the R. R. Y. M. C. A. last night was well attended. When the entertainment commenced at 8 o'clock, fully three hundred people were turned away. Another evidence of the need of a larger auditorium and gymnasium room.

Conductor James O'Byrne will be assigned to runs Nos. 119 and 120 between Topeka and St. Joseph.

G. E. Barnaby will address the men's gospel meeting at the R. R. Y. M. C. A. tonight. Conductor Caldwell has been assigned to runs Nos. 61 and 62 between Topeka and Argentine in the place of Conductor O'Byrne.

There is a vacancy on the following runs: The oldest men in point of seniority bidding for it will be assigned at 12 o'clock noon on Sunday, November 8: 113 and 114, out of Argentine, for engineer; 113 and 114 out of Florence, for fireman; extra work at Florence for fireman, vacated by F. C. Burkett; 398 and 399, Superior lay-over, for fireman, vacated by B. L. Hutton; 351 and 352, Arkansas City lay-over, for fireman vacated by R. McCabe; 93 and 94, Newton lay-over, for fireman, vacated by E. C. Clarkson.

## COFFEYVILLE'S NEW REFINERY.

Will Cost \$300,000 and Have a Capacity of 1,000 Barrels Daily.

Chanute, Kan., Nov. 7.—Plans have been consummated whereby Ira F. Elston of this city, manager of the Kansas refinery, will build a \$300,000 refinery at Coffeyville. The plant, when completed, will have a capacity of 1,000 barrels daily and be the largest independent concern in this section of the country. It will secure its oil supply from Oklahoma, and will differ radically in purpose from the other plants in this district. It is intended to take the heavy Oklahoma oil, which is now shipped to Chanute, and separate it in the Coffeyville plant, forwarding the light oil here for further refining into kerosene and gasoline and retaining the heavy residuum at Coffeyville for conversion into what is known as by-products—cylinder oil, axle grease, lubricants, petroleum jelly and similar marketable products. By

such an arrangement the Coffeyville refinery would be able to furnish sufficient light oil for refining to all three of the Chanute plants and at the same time save freight both ways. At present the heavy oil is shipped here, a portion of it refined and then shipped directly back to the trade in the southern part of the state and in Oklahoma.

## A. F. Wessen Gro. Co.

Sixth and Clay Sts.

ures which should successfully sustain the Novelty's reputation as a popular place of entertainment. One of the most attractive features offered is the noted trio, Miskel, Hunt and Miller, who will present a novel musical act that is declared to be one of the most delightful of its kind in vaudeville. Nellie Texana, who is claimed to be the premier lady rifle shot of the world, will give an exhibition of skillful short range marksmanship. Miss Texana is "assisted" in this act by her prize-winning dog, Pat. A thrilling quarter hour will be furnished by the famous Richards, European aerial gymnast, who performs some sensational feats on the trapeze. A large share of the amusement of the bill will be contributed by Fern and Mack, a pair of eccentric comedians who have a sketch entitled "Trampology" that is a great mirth producer. Miss Cleone Pearl Fell, one of the daintiest comedienne and dancers before the public, will have a prominent place on the programme and Mr. P. B. Hamlin will sing illustrated ballads and the viascope will show an entirely new series of moving pictures. Ladies' souvenir matinee will be given Friday afternoon and there will be a daily matinee and two performances—7:45 and 9:15—each evening.

## LAKE UNDER DAM SITE.

Work on Panama Canal May Be Delayed Several Years.

New Orleans, Nov. 7.—A report reached here today from Colon, Panama, that a subterranean lake found under the site of one of the proposed big locks of the Panama canal at Gatun will result in a delay of several years in completing the canal and a much larger outlay of money than at first anticipated.

According to this report the discovery of the lake has been kept a secret. Engineers who are said to know of the discovery declined to discuss the matter during the absence of Colonel Goethals, who is in the United States.

Commission Denies It. Washington, Nov. 7.—At the isthmian canal commission offices in this city it was stated today that no word had been received as to the find of a subterranean lake under the site of one of the locks at Gatun and it was declared the report of such a discovery was absurd on its face. It was stated that borings on these lock sites had been extended forty feet and that the evidence of stability was conclusive.

## New Counterfeit Discovered.

Washington, Nov. 7.—A new counterfeit in the shape of a five dollar silver certificate has made its appearance according to a circular letter issued by John E. Wilkie, chief of the secret service division of the treasury department. The new counterfeit is an imitation of the "Indian head" series of 1899, check letter "D," face number 1164, back plate No. 782, W. T. Vernon, registrar of the treasury. Charles H. Treat, treasurer of the United States. The number on the specimen in the hands of treasury department officials is D47963872. Chief Wilkie says the general appearance of this counterfeit is deceptive. The only note so far discovered was found in Chicago.

This is the beginning of the busy season for the fire department. Better rent a box for your valuable papers at the Prudential bank.

Miss Geraldine Farrar Engaged to Antonio Scotti.

## FARRAR TO WED.

The Prima Donna's Engagement to Scotti Is Announced.

Berlin, Nov. 7.—The engagement of Geraldine Farrar, the Melrose, Mass., prima donna, to Antonio Scotti, the Italian baritone of the Metropolitan Opera house, has just been announced. This engagement comes as somewhat of a surprise to her many friends in view of her recent definite announcement that she was not engaged. A year ago when Miss Farrar came to America on the same steamer with Antonio Scotti there were predictions that the play bills last winter would announce Signor and Signora Scotti before the season was over. These were treated by the famous American singer as a jest, but now, nearly a year later, this prophecy has been fulfilled.

## A BOOST FOR DOLLEY.

Wabunsee Republicans Would Like to See Him Elected Speaker.

The Republican county central committee of Wabunsee county this afternoon adopted a resolution intended as a boost for Representative-elect Dolley, chairman of the Republican state committee, who is also chairman of the Wabunsee committee, for the speakership in the house of representatives this winter. The resolution was introduced by Secretary Joseph Frishman, who has acted as chairman of the committee during the campaign which has just closed.

The following is a copy of the resolution which was presented to the committee and adopted: "Resolved by the members of the

Republican county central committee of Wabunsee county that we as neighbors and fellow Republicans appreciate the unselfish and untiring work of Chairman Dolley of the state committee during the campaign which has just closed and heartily commend him to the members of the legislature for speaker of the house." "Mr. Dolley will accept the speakership," said Mr. Frishman, "if it is tendered to him without a fight, but it must come in that way or he will not accept it. We feel as a committee that he is entitled to the place and that his acceptance of the speakership will prevent a fight for the place after the session opens and will be a move in the direction of greater harmony."

He Killed a Kansas Man. Pueblo, Nov. 7.—Cleveland Nunn, who was arrested at Rockyford and has been placed in jail here, confessed he killed Thurman Walker, aged 38, of Valleys Falls, Kansas, whose decomposed body was found with a leather strap drawn tightly around the neck in the Arkansas river near Neposta, August 19 last. Nunn claims that he shot Walker during a quarrel in self defense but he is held on a charge of murder. The authorities believe robbery was the motive for the alleged crime. Walker was killed after starting for Wyoming, with Nunn, to look for work.

Taxicab Strike Is Settled. New York, Nov. 7.—Settlement of the taxicab strike, which has been in progress for several weeks, in this city, is announced by President H. N. Allen of the New York Taxicab company. The old wage scale is continued, it is stated, chauffeurs now in the employ of the company will be retained, and old chauffeurs will be reinstated as soon as they can be furnished with cars, after they have made individual application for employment.
